REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION
TO THE BOARD OF DIRECTORS OF SHANGRI-LA ASIA LIMITED
(incorporated in Bermuda with limited liability)

Introduction

We have reviewed the interim financial information set out on pages 5 to 31, which comprises the interim condensed consolidated statement of financial position of Shangri-La Asia Limited (the "**Company**") and its subsidiaries (together, the "**Group**") as at 30 June 2016 and the related interim condensed consolidated statements of income, comprehensive income, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants. The Directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting".

Investment properties were stated at fair value (including those properties being constructed for future use as investment properties for which fair value becomes reliably determinable). All changes in the fair value of investment properties were recorded in the income statement.

The Group assesses the carrying value of property, plant and equipment; and leasehold land and land use rights when there is any indication that the assets may be impaired. These indications include continuing adverse changes in the local market conditions in which the hotel operates or will operate, when the hotel continues to operate at a loss position and its financial performance is worse than expected. Professional valuations were carried out by independent firms of professional valuers as at 30 June 2016 for those properties for which the internal assessment results needed independent confirmation. The recoverable amount of each hotel is the higher of its fair value less costs of disposal using the market comparison approach and its value in use using the income approach based on the opinion of independent firms of professional valuers. During the current period, the Group recognised an impairment loss of US$70,485,000 for a hotel wholly owned by the Group in Qufu, Mainland China in the consolidated income statement under "Other losses – net", to write down the carrying value of property, plant and equipment; and leasehold land and land use rights to the recoverable amount of US$75,401,000. The recoverable amount of this hotel is based on the market comparison approach which is categorised as a Level 3 measurement in accordance with HKAS 36. The average price of approximately US$174,000 per hotel room was the key assumption used in the valuation.

All intangible assets are also subject to internal review for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

14. Convertible bonds

On 12 May 2011, a wholly owned subsidiary of the Company issued zero coupon guaranteed convertible bonds due 12 May 2016 ("**Maturity Date**"), in the aggregate principal amount of US$500 million. Each bond will, at the option of the holder, be convertible on or after 22 June 2011 up to the close of business on the business day immediately prior to 2 May 2016 into fully paid ordinary shares of the Company with a par value of HK$1.00 each at an initial conversion price of HK$29.03 per ordinary share of the Company (subject to adjustment) and the conversion price has been adjusted to HK$27.63 per ordinary share of the Company on 11 June 2015. Unless previously redeemed, converted or purchased and cancelled, these bonds will be redeemed at 111.84% of their principal amount on the Maturity Date.

The initial fair values of the liability component and the equity conversion component, based on net proceeds, were determined at issuance of the bonds. The fair value of the liability component was calculated using a market interest rate for an equivalent non-convertible bond. The residual amount, representing the value of the equity conversion component, is included in shareholders' equity in other reserves (Note 12).

During the period, the entire outstanding convertible bonds with face value of US$500,000,000 were redeemed on Maturity Date. The convertible bonds recognised in the consolidated statement of financial position is calculated as follows:

	As at	
	30 June 2016	31 December 2015
Face value of convertible bonds issued on 12 May 2011	**500,000**	500,000

24. (Loss)/Earnings per share

Basic

Basic (loss)/earnings per share is calculated by dividing the (loss)/profit attributable to equity holders of the Company by the weighted average number of ordinary shares in issue during the period after adjustment of those issued ordinary shares of the Company held by a subsidiary.

	For the six months ended	
	30 June 2016	30 June 2015
(Loss)/profit attributable to equity holders of the Company *(US$'000)*	**(3,743)**	98,381
Weighted average number of ordinary shares in issue *(thousands)*	**3,569,523**	3,569,504
Basic (loss)/earnings per share *(US cents per share)*	**(0.105)**	2.756

Diluted

Diluted (loss)/earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Company has two categories of dilutive potential ordinary shares: convertible bonds and share options. The convertible bonds are assumed to have been converted into ordinary shares and the net profit is adjusted to eliminate the interest expense. For the share options, a calculation is done to determine the number of shares that would be issued at fair value (determined as the average annual market share price of the Company's shares) based on the monetary value of the subscription rights attached to outstanding share options. The number of shares calculated as above is increased by the number of shares that would have been issued assuming the exercise of the share options.

For the six months ended 30 June 2015 and 30 June 2016, there is no dilution effect on the earnings per share and loss per share, respectively.

The Group measures financial assets and liabilities using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1 – Quoted market prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices)

The definitions, the valuation technique and inputs used in the fair value measurements for financial assets and liabilities under Level 1 and Level 2 are consistent with those used in the Group's annual financial statements for the year ended 31 December 2015.

The following table presents the Group's financial assets and liabilities that are measured at fair value at 30 June 2016.

(iii) Property rentals from ownership and leasing of office properties, commercial properties and serviced apartments/residences

The Group is also engaged in businesses other than the above-mentioned main business segments. These include:

– the operation of a golf course in Bali, Indonesia (a 53.3%-owned business); and

– wine trading in Hong Kong and Mainland China (a 20%-owned business).

These other businesses did not have a material impact on the Group's consolidated results for the six months ended 30 June 2016.

During the six months ended 30 June 2016, the following Group-owned new hotels opened for business:

– The 576-room Shangri-La at the Fort, Manila together with the Shangri-La Residences at Bonifacio Global City in Metro Manila (the Group has 40% equity interest) opened for business on 1 March 2016.

– The 417-room Midtown Shangri-La, Hangzhou, (part of the Hangzhou Kerry Centre in which the Group has 25% equity interest) opened for business on 12 March 2016.

– The 300-room Shangri-La's Hambantota Resort & Spa, Sri Lanka (the Group has 90% equity interest) opened for business on 1 June 2016.

For the six months ended 30 June 2016, on an unconsolidated basis, room revenues accounted for around 50% of the total revenues from hotel operation while food and beverage revenues accounted for around 43%. Despite the opening of new hotels in the second half of 2015 and the first half of 2016, room revenues expressed in US dollar terms decreased by 1% principally affected by the currency depreciation while food and beverage revenues remained at the same level as last year.

The key performance indicators of the Group-owned hotels (including hotels under lease) on an unconsolidated basis for the six months ended 30 June 2016 and 2015 are as follows:

(a) Segment Results *(continued)*

(i) Hotel Ownership *(continued)*

Overall, the weighted average occupancy increased by 2 percentage points while the weighted Average Room Rate ("**ADR**") and the weighted Average Room Yields ("**RevPAR**") decreased by 10% and 8%, respectively in 2016.

Comments on performance by geography:

The People's Republic of China

Hong Kong

Hotels in Hong Kong registered a decrease in weighted average RevPAR of 4% as a result of the continuous decline in visitors from both Mainland China and other countries. The decline is attributable to both the political environment in the city and the loss of attractiveness as cheaper alternative destinations are available following the weakening of most currencies against the US and Hong Kong dollars.

The overall net profit of the Hong Kong hotel ownership segment for the six months ended 30 June 2016 decreased by US$1.4 million to US$28.8 million as compared to the same period last year.

Mainland China

As at 30 June 2016, the Group has equity interest in 43 operating hotels in Mainland China. The slower economic growth and the depreciation of Renminbi resulted in most of the hotels recording declines in weighted average ADR. However, the weighted average occupancies of most of the hotels recorded improvement. The overall weighted average RevPAR registered a 7% decrease when compared to the same period last year.

However, as a result of the cost savings effort and the increased contribution from food and beverage sales, the performance of most of the loss-making hotels improved. The performance of the Pudong Shangri-La, East Shanghai has also shown remarkable improvement with its net profit for the current period increasing by US$4.0 million. Overall, net loss of the hotel ownership segment in Mainland China reduced by US$13.3 million during the current period.

Singapore

Hotels in Singapore registered an overall decrease in weighted average ADR of 5%. However, the overall weighted average occupancy of all the hotels registered a 3 percentage points increment, largely benefiting from the completion of major renovations at the Hotel Jen Tanglin Singapore.

The overall net profit of the hotels in Singapore increased by US$2.0 million during the current period.

The Philippines

The hotels in the country recorded a decrease in weighted average RevPAR of 5%, mainly due to the 7% reduction in weighted average ADR.

Net profit for the current period decreased by US$4.0 million after recording US$1.3 million start-up loss of the Shangri-La at the Fort, Manila.

Malaysia

The weighted average ADR of all the six hotels was down by 7%, adversely affected by the 11.4% currency depreciation. The overall weighted average occupancy increased by 4 percentage points.

The overall net profit of the hotels and resorts in the country increased marginally by US$0.3 million.

Thailand

The weighted average occupancy of the hotels was down by 7 percentage points. This, together with a 1% reduction in the weighted average ADR, led to a decrease in weighted average RevPAR by 12%.

The net profit from the two hotels in Thailand reduced by US$2.5 million during the current period.

Japan

Supported by an increase in weighted average ADR of 14% on the back of an appreciating Japanese yen, the Shangri-La Hotel, Tokyo registered an increase in RevPAR of 13%.

The hotel recorded a net profit of US$0.2 million during the current period, as compared to a net loss of US$1.6 million in the same period last year.

Australia

The three hotels in Australia registered an increase in weighted average RevPAR of 3%, mainly supported by an increase in weighted average occupancy of 8 percentage points.

The Group recorded a net profit of US$1.1 million during the period, as compared to a loss of US$1.3 million in the same period last year.

(i) Hotel Ownership *(continued)*

France

The hotel in Paris recorded a decrease in RevPAR in US dollar terms of 21% largely due to a decrease of 12 percentage points in occupancy as a result of the terrorism related incidents in the city.

However, due to a decline in depreciation charges following the full depreciation of certain fixed assets under the accounting policy, net loss of the hotel reduced from US$12.3 million to US$8.8 million for the current period.

The United Kingdom

The leased hotel in London recorded an increase in occupancy of 6 percentage points but a decrease in ADR of 8% in the first half of 2016, mainly due to the depreciation of local currency.

The amount of net loss reduced by US$3.6 to US$10.6 million in the current period.

Other Countries

The two hotels in Maldives were adversely affected by a decline in arrivals from key source markets following political and economic uncertainties and security concerns in the country and recorded a drop in weighted average occupancy and ADR of 9 percentage points and 10%, respectively, which led to a decrease in weighted average RevPAR of 25%. The amount of net loss increased by US$0.9 million to US$2.5 million in the current period.

The hotel in Ulaanbaatar (opened for business in June 2015) recorded an increase in occupancy of 6 percentage points and ADR of 3%. However, net loss of the hotel increased by US$2.8 million during the period as a result of the increase in depreciation charge by US$5.0 million.

Affected by the political environment in Turkey, the hotel in Istanbul recorded a decrease in RevPAR of 46% following a substantial decrease in occupancy of 30 percentage points. However, the amount of net loss shared by the Group reduced by US$0.5 million to US$1.6 million in the current period as the corresponding period in last year included an exchange loss of US$2.2 million mainly arising from the US dollar bank borrowing.

The new resort in Hambantota recorded a net loss of US$0.7 million during the current period due to the start-up costs while the hotels in Jakarta, Fiji, Yangon and Mauritius recorded marginal changes in their financial results during the current period.

(a) Segment Results *(continued)*

(ii) Hotel Management

As at 30 June 2016, the Group's wholly owned subsidiary, SLIM International Limited and its subsidiaries ("**SLIM**") managed a total of 98 hotels and resorts. Except for the Portman, all the other 75 hotels in which the Group has equity interest and 3 hotels under operating lease agreements are managed by SLIM. SLIM also managed a total of 20 operating hotels (6,649 available rooms) owned by third parties located in Toronto and Vancouver (Canada), Manila (the Philippines), Muscat (Oman), Doha (Qatar), Abu Dhabi (2 hotels) and Dubai (UAE); Putrajaya, Johor and Kuala Lumpur (Malaysia); New Delhi and Bengaluru (India); Taipei and Tainan (Taiwan); and Beijing, Changzhou (2 hotels), Haikou and Suzhou (Mainland China).

For the six months ended 30 June 2016, overall weighted average RevPAR of those hotels under third party hotel management agreements registered a decrease of 15% in US dollar terms as compared to last year. Consolidated revenues of SLIM, after elimination of revenue earned from fellow subsidiaries, recorded a decline of 4%. However, the net profit contribution from the hotel management segment increased marginally by US$0.5 million to US$8.8 million in the current period as a result of cost savings measures instituted.

As at 30 June 2016, SLIM had management agreements on hand for 9 new hotel projects which were owned by third parties.

(iii) Property Rentals

The property rentals segment continued to be the Group's main source of operating profits for the current period. The Group's major investment properties are located principally in Shanghai and Beijing and are owned by associates. Yields of most of the investment properties were also adversely affected by the depreciation of local currencies against the US dollar.

Mainland China

In Beijing, yields of the office spaces and commercial spaces at the China World Trade Center (the Group owns between 40.32% and 50% equity interests) recorded decrease of 1% and 11%, respectively while yields of the serviced apartments remained at the same level as last year. Major renovations to the Center's original exhibition hall and its connecting area are ongoing and are expected to be completed by late 2016. These spaces will be converted into a shopping mall with much higher rental yields and the total lettable area will be increased by approximately 21,500 square meters upon completion. The serviced apartments of Century Towers, Beijing (50% owned by the Group) recorded a decrease in yields of 4% due to a decrease in occupancy by 8 percentage points. Yields of the commercial spaces at the Beijing Kerry Centre (23.75% owned by the Group) recorded an increase of 7% while yields of the office spaces and serviced apartments recorded a marginal decrease of 1%.

EBITDA is defined as earnings before interest expenses on loans and bonds issued, tax, depreciation and amortisation, gain or loss on disposal of fixed assets and interest in investee companies and excludes fair value gains or losses on investment properties; fair value gains or losses on financial assets held for trading; and impairment loss on fixed assets.

1. OPERATIONS REVIEW *(continued)*

(b) EBITDA and Consolidated Profits *(continued)*

Important comments on the consolidated income statement for the current period as compared to those of interim 2015 are as follows:

– Gross profit margin of the hotels owned by subsidiaries improved from 58.0% to 58.4% and the consolidated gross profit margin of the Group increased from 56.3% to 57.0% in 2016 as a result of the continuing emphasis on cost savings. As a result of the depreciation of most currencies against the US dollar during the current period, sales by subsidiaries reduced by US$31.5 million (3.1%) compared to 2015 which led to a decrease in gross profit of the subsidiaries by US$10.1 million (1.8%).

– Impairment provision for a hotel owned by a subsidiary of US$70.5 million (2015: US$68.9 million) and fair value losses on investment properties owned by subsidiaries of US$79.8 million (2015: fair value gains of US$27.1 million) were grouped under "Other losses – net" included in the consolidated operating profit before finance costs.

– Consolidated finance costs of the Company and subsidiaries increased by US$7.3 million mainly due to US$8.2 million exchange loss recorded during the current period which included US$7.1 million loss on a corporate bank loan denominated in Japanese yen compared to a credit of US$4.4 million in last year.

– Share of net profit after tax from associates decreased by US$27.5 million primarily due to a decrease in the share of net fair value gains after tax on investment properties of US$36.2 million and an increase in the impairment provision made for a hotel by US$6.2 million despite the share of profits after tax from property sales increased by US$14.3 million during the current period.

2. CORPORATE DEBT AND FINANCIAL CONDITIONS

At the corporate level, the Group executed four 5-year unsecured bank loan agreements totaling an equivalent of US$468.6 million and one 3-year unsecured bank loan agreement of US$64.1 million during the period. The outstanding convertible bonds of US$500 million were entirely redeemed by the Group in May 2016.

At the subsidiary level, the Group also executed the following bank loan agreements during the period:

As at 30 June 2016, the Group had net current liabilities of US$279.6 million. These funding obligations can be met through the committed and available bank loan facilities of US$1,096.8 million, which are expiring after 30 June 2017, new bank loan facilities committed subsequent to the period end and the net cash inflows to be generated from operating activities.

Subsequent to the period end, the Group executed a 5-year bank loan agreement of HK$1,700 million (approximately US$219.4 million) at the corporate level. Certain subsidiaries also executed two 3-year bank loan agreements totaling RMB465 million (approximately US$70.1 million) for refinancing of local entrusted loans and a 10-year bank loan agreement of RMB370 million (approximately US$55.8 million) for project financing. The Group is also finalising the documentation of two 3-year bank loan agreements at the subsidiary level totaling RMB288 million (approximately US$43.4 million).

Excepting fixed-rate bonds and bank loans in Renminbi, which carry interest at rates specified by the People's Bank of China from time to time, all borrowings are generally at floating interest rates.

Details of financial guarantees, contingencies and charges over assets as at 30 June 2016 are disclosed in Note 26 to the condensed consolidated interim financial statements included in this Interim Report.

3. TREASURY POLICIES

The Group's treasury policies aim at minimising interest and currency risks:

The Group has endeavoured to hedge its medium term interest rate risks by entering into interest-rate swap contracts. No new contract was executed during the period. As at 30 June 2016, the outstanding HIBOR and LIBOR interest-rate swap contracts are:

– HK$2,200 million (approximately US$283.9 million) at fixed rates ranging between 0.94% and 1.635% per annum maturing during December 2016 to October 2018

– US$206 million at fixed rates ranging between 1.42% and 1.785% per annum maturing during August 2018 to October 2018.

All these interest-rate swap contracts qualify for hedge accounting.

Taking into account these interest-rate swap contracts, fixed rate bonds and the Renminbi bank loans, the Group has fixed its interest liability on 26% of its borrowings outstanding as at 30 June 2016.

In Mainland China, the Group arranged entrusted loans through local banks to utilise the surplus cash of certain subsidiaries to meet the funding requirements of other group companies to minimise interest cost. In response to the depreciation of the Renminbi, the Group is arranging new local bank borrowings in Renminbi to refinance these entrusted loans and surplus cash in Renminbi will be repatriated to the corporate for the repayment of corporate bank borrowings. The Group is also arranging new local bank borrowings in Renminbi to refinance foreign currency bank borrowings by subsidiaries in order to reduce exchange risk. The Group aims at using bank borrowings in local currency to finance the capital expenditure and operation funding requirements of the properties and/or development projects in a country to achieve natural hedging of its assets.

It is the Group's practice, wherever and to the extent possible, to quote tariffs in the stronger currency and maintain bank balances in that currency, if legally permitted. In general, the Group has not felt it appropriate to substantially hedge against currency risks through currency forward contracts upon consideration of the currency risks involved in normal operations and the cost of obtaining such cover.

4. INVESTMENT PROPERTIES VALUATIONS

Investment properties of subsidiaries and associates continue to be stated at fair value and are reviewed semi-annually (including those properties being constructed for future use as investment properties for which fair value becomes reliably determinable). All changes in the fair value of investment properties (including those under construction) are recorded in the income statement. For the six months ended 30 June 2016, the investment properties owned by the Group's subsidiaries recorded share of net fair value losses (net of deferred tax credit) of US$40.3 million while the Group's associates recorded share of net fair value gains (net of deferred tax charges) of US$78.3 million, based on the opinions obtained from independent professional valuers.

5. IMPAIRMENT PROVISION

The Group assesses the carrying value of a group-owned operating hotel when there is any indication that the asset may be impaired. Indicative criteria include continuing adverse changes in the local market conditions in which the hotel operates or will operate, when the hotel continues to operate at a loss position and its financial performance is worse than expected. Professional valuations were carried out by independent firms of professional valuers during the year for those properties for which the internal assessment results needed independent confirmation. Based on the valuation reports obtained at 30 June 2016, the Group's share of the impairment losses for two hotels in Mainland China located in Qufu (wholly owned) and Shenyang (the Group has 25% equity interest) amounted to US$70.5 million and US$6.2 million, respectively. The impairment loss of the subsidiary is included in the consolidated income statement under "Other losses – net" to write down the carrying value of the hotel's fixed assets to the recoverable amount while the impairment loss of the associate is included in "Share of profit of associates". The recoverable amount of each hotel is the higher of its fair value less costs of disposal and its value in use based on the opinion of independent firms of professional valuers using the market comparison approach and/or income approach.

6. FINANCIAL ASSETS HELD FOR TRADING – TRADING SECURITIES

As at 30 June 2016, the market value of the Group's investment portfolio was US$13.9 million, which mainly included 4,483,451 ordinary shares in Kerry Properties Limited and 2,241,725 ordinary shares in Kerry Logistics Network Limited. The Group recorded unrealised fair value losses of US$1.6 million and dividend income of US$0.9 million during the period.

7. DEVELOPMENT PROGRAMMES *(continued)*

(b) Composite Developments and Investment Properties Developments *(continued)*

The Group is currently reviewing the development plans of the following projects in which the land sites and/or properties were acquired in recent years:

Hotel development

- Wolong Bay in Dalian, Mainland China (wholly owned by the Group)
- Putian, Mainland China (40% equity interest owned by the Group)
- Bali, Indonesia (53.3% equity interest owned by the Group)
- Rome, Italy (wholly owned by the Group)

Composite development

- Zhengzhou, Mainland China (45% equity interest owned by the Group)
- Kunming, Mainland China (45% equity interest owned by the Group)
- Tianjin Kerry Centre – Phase II, Mainland China (20% equity interest owned by the Group)
- Accra, the Republic of Ghana (45% equity interest owned by the Group)

The Group continues to review its asset portfolio, and may sell assets that it considers non-core at an acceptable price and introduce strategic investors for some of its operating assets/development projects. The Group adjusts its development plans and investment strategy from time to time in response to changing market conditions and in order to improve the financial position of the Group.

8. DISPOSAL

On 16 June 2016, the Group entered into a sale and purchase agreement with an independent third party to dispose of its entire interest of 100% in a project company which owns the Golden Flower Hotel, Xian in Mainland China for a cash consideration of RMB56 million (approximately US$8.4 million) subject to adjustment in accordance with the change in working capital of the project company. Completion of the disposal is subject to certain conditions including obtaining the necessary approvals from the local government authorities and completion of the change of registration as required by local laws. The Group will terminate the hotel management agreement upon completion of the transaction. After considering the hotel's historical financial performance and its prospects, the Group considered the consideration is fair and such disposal would be beneficial to the Group. It is currently envisaged that the Group will record a marginal profit on completion of the disposal.

9. MANAGEMENT CONTRACTS FOR HOTELS OWNED BY THIRD PARTIES

During the six months ended 30 June 2016, the Group signed the following hotel management agreements with third parties:

– In January 2016, the Group signed an agreement for the management of a 328-room Shangri-La hotel at Jinji Lake Suzhou in Mainland China scheduled to open at the end of 2017. The hotel will form part of the upscale Xiexin Plaza complex that comprises luxury living and a grade A office tower in the Suzhou Industrial Park.

– In March 2016, the Group signed an agreement for the management of a 200-room Hotel Jen Kuala Lumpur in Malaysia scheduled to open in 2019. The hotel will be located in the heart of the city.

As at the date of this report, the Group has management agreements in respect of 20 operating hotels owned by third parties. In addition, the Group also has agreements on hand for the development of 9 new hotels owned by third parties. The development projects are located in Shaoxing, Nanning, Qiantan, Yiwu and Suzhou (Mainland China); Kota Kinabalu and Kuala Lumpur (Malaysia), Jeddah (Saudi Arabia) and Phnom Penh (Cambodia).

The Group continues to review proposals it receives for management opportunities and intends to secure management agreements for third-party owned hotels that do not require capital commitments in locations/cities which it considers to be of long-term strategic interest.

10. PROSPECTS

The global political and economic outlook continues to be uncertain. Many of the Group's hotels in Mainland China are operating in a market that is characterised by oversupply relative to demand growth. Most of the currencies in which the Group has its operation, barring Hong Kong and Japan, have depreciated against the US dollar.

All these factors taken together are continuing to exert pressure on the Group's profit performance. However, the Group's hotels in some cities in Mainland China have seen improvements in yields relative to last year. Rental yields from investment properties in some of the Mainland Chinese cities have also weakened. However, the quality and premium location of these properties are helping them out-perform their competitive set.

Given present indications, with little change in the geo political or economic environment, it appears unlikely the Group will experience any major improvement in its operating performance, relative to the previous year.

11. HUMAN RESOURCES

As of 30 June 2016, the Company and its subsidiaries had approximately 27,900 employees. The headcount of all the Group's managed hotels and resorts totalled approximately 46,000.

Remuneration policies, share option schemes, share award scheme and training schemes have been consistently applied by the Group as disclosed in the 2015 annual report.

12. CORPORATE GOVERNANCE

The Company recognises the importance of transparency in governance and accountability to shareholders. The Board believes that shareholders can maximise their benefits from good corporate governance. Therefore, the Company continuously reviews its corporate governance framework to ensure alignment with generally acceptable practices and standards.

Directors Handbook

The Board has adopted a composite handbook ("**Directors Handbook**") comprising (amongst other things) a set of principles for securities transactions by directors or any non-directors of the Company ("**Securities Principles**") and a set of corporate governance principles of the Company ("**CG Principles**"), terms of both of which align with or are stricter than the requirements set out in, respectively, the Model Code for Securities Transactions by Directors of Listed Issuers ("**Securities Model Code**") as contained in Appendix 10 to the Rules Governing the Listing of Securities ("**Listing Rules**") on The Stock Exchange of Hong Kong Limited ("**HKSE**") and the code provisions under the Corporate Governance Code and Corporate Governance Report ("**CG Model Code**") as contained in Appendix 14 to the Listing Rules, save for the provision in the Directors Handbook that the positions of the chairman and the chief executive officer of the Company may be served by the same person. The Directors Handbook serves as a comprehensive guidebook for all directors of the Company.

During the underlying six-month period, the Securities Principles and the CG Principles were the codes for the directors' securities transactions and the Company's corporate governance, respectively.

Code on Securities Transactions

The Company has made specific enquiry of each of the directors of the Company and all the directors have confirmed compliance with the Securities Principles throughout the underlying six-month period.

Code on Corporate Governance

The Company has met the CG Principles and the CG Model Code throughout the underlying six-month period except for the deviation(s) summarised below:

CG Model Code		Deviation(s) and reason
A.2.1	The roles of the chairman and the chief executive officer should be separate and should not be performed by the same individual	Mr KUOK Khoon Chen serves as both the chairman and the chief executive officer of the Company. The Company believes that the non-separation of the two roles is not significant given that the Company's current managing director and chief operating officer, Mr LIU Kung Wei Christopher, is responsible for the day-to-day operations of the Group, reporting directly to Mr KUOK Khoon Chen.
